

Indian Institute of Science Centenary Conference

An Alumni Event

Career Opportunities and New Frontiers in Biotechnology and Pharmaceutical Industry

A Discussion Forum

The life science industry offers a plethora of opportunities not only in research but also in management, finances, intellectual property rights, clinical trials, manufacturing, sales and marketing. This forum provides an opportunity for students to meet and hear from entrepreneurs of various Biotech and Pharma industries. Given the rapid growth of life sciences industry in India and across the world, an understanding of the nature and existence of these career opportunities may empower decision making in choosing a professional career.

- Areas of opportunities
- Myths of working in industry
- Personal experiences of IISc alumni working in industry
- Question and Answer session
