

International Conference on Control and Inverse Problems

December 16 - 18, 2009

Venue:

Lecture Hall I
Department of Mathematics
Indian Institute of Science
Bangalore

About the Conference:

The main focus of the conference was to bring together both international and national experts in the area of control and inverse problems. The conference covered a wide range of topics mainly concentrating on the mathematical aspects, but there were many lectures from applications including aerospace, space science etc. There were 22 invited talks at the conference and 65 researchers (including the speakers) participated in the program
