About Dolcera

Dolcera (http://www.dolcera.com/) is a leading KPO of India; headquartered in California and Hyderabad in India, in the technology research, business research and analytics domains. Dolcera’s clients include around 30 Fortune 500 companies in the US and Europe. Dolcera’s business model is highly scalable with a strong competitive differentiator built in its service offerings – which involves use of proprietary software to deliver its services to clients.

Dolcera works with research groups of the local team and clients to answer some of the strategic questions asked by the clients.

Dolcera’s work products include:-

- Detailed IP (patent) and technology landscapes with competitive profiling
- Detailed business research reports to make/plan business forecasts
- Sales of proprietary software for ‘do it yourself’ customers

Dolcera’s team comprises leading technology experts from some of the leading universities of India. Our team comprises a good mix of thought leaders from Stanford, Harvard, IIT’s, IIM’s, MDI and other prestigious institutes.
